

AMERICAN ENERGY - BY THE NUMBERS

10.4 Billion	Barrels of American Energy locked up in ANWR - the Democrat Majority wants to throw away the key
0.01%	Percentage of ANWR that would be affected by 21 st century American energy development (2000 acres of the 19.6 million-acre refuge)
162.3 Billion	Barrels of Untapped American Energy in the Nation's outer continental shelf (OCS) according to the Minerals Management Service (MMS)
85%	Percentage of OCS off-limits to energy development in the Lower 48
27.8 Billion	Barrels of American Energy Democrats would like to see locked up in the Chukchi Sea
1 Million	American jobs created if Democrats would end their irrational opposition to energy development in a fraction of ANWR
\$3.9 Trillion	Value of the American energy (at today's prices) we could be developing in ANWR and the Chukchi Sea instead of sending that money to OPEC and hostile dictators.
\$1,953	Foreign Energy Tax paid by every man, woman and child in the U.S. for imported oil per year (including refined products and assuming population of 300,000,000)
\$1.64 Billion	Price of U.S. Imported Oil Products Per Day (including refining products and assuming \$120/barrel)
42 Million	Gallons of oil per day we could begin producing by or before 2022 if Congress allowed us to do it (1 million barrels/day @ 42 gallons/barrel)
\$183.5 Billion	Income tax and royalty revenue that would flow to the federal government over the 30 year lifetime of ANWR development if Democrats would open 2000 acres of the 19.6 million acre Refuge (CRS estimate at \$120/barrel)
15 Billion	Gallons of ethanol per year mandated by 2022 under Speaker Pelosi's Energy Bill
\$7.5 Billion	Taxpayers' annual bill once the 15 billion gallon ethanol mandate is reached (based on the current 51 cents/gallon federal subsidy)
75%	Percentage of Taxpayers' Ethanol Mandate Bill that could be covered by federal revenues from ANWR energy production (\$5.6 billion/year based on \$168.2 billion over 30 years)
\$500 Billion	American dollars we'll send to foreign governments and hostile dictators in 2008 because of this body's decades-old policy of saying NO! to any real American energy development
\$1.30	Increase in the average price of regular gasoline per gallon since the Democratic Majority began their rule over "energy" policy
Zero	Actions taken by the Democrat Majority to lower Americans' energy prices and our dependence on foreign oil
Countless	Actions taken by the Democrat Majority to make energy less available and more expensive
PRICELESS	<i>"Democrats have a commonsense plan to help bring down skyrocketing gas prices" - Speaker Pelosi, April 24th, 2006</i>
